CGI Artist's Impression

Here, luxurious homes and premium amenities, all come together in a vast expanse of nature. All just a stone's throw from the hustle and bustle of the city.

The luxury of personal space is getting rarer to come by, and in a city that is known for its crowds, quietude is nothing short of sheer opulence.

COME HOME TO CALM.

COME HOME TO REN & REI.

THE ESSENCE OF REN & REI.

Ren & Rei is centred around the idea of mindful design in every aspect. The perfect blend of open spaces, convenience, leisure, safety and recreation promises residents an enriching lifestyle.

THE GATEWAY TO YOUR WORLD.

The entrance to most spaces gives you an idea of what's to come. The screened main entrance evokes a sense of intrigue regarding what lies behind, we have taken special care to ensure that it doesn't give away the exclusivity we have so meticulously cultivated for you.

Entrance

The entrance to the lobby is a grand one. The lobby has a dedicated delivery storage area and ample seating. It offers a preview to what awaits you in your home – space.

The individual homes follow suit, where the entrance ensures that your personal space is not visible to the world that passes by.

Clubhouse

As you enter the clubhouse you will notice the peepal tree that has been there since before we laid the first brick. We built around nature.

MAKING

HEADS TURN.

The eco-contemporary feel of Ren & Rei is a balance between appealing aesthetics and durability. Traditional materials like cudappah stone, ribbed wood, corten steel panelling, terracotta textured panelling and aluminium louvres with wood finish have been used across the outdoor spaces to give a varied yet cohesive look and feel.

EVERYTHING YOU WANT

A HOME TO BE.

Sunlit and airy interiors, spacious bedrooms, and balconies that give you the feel of the outdoors even when you are spending well-earned rest time indoors are all part and parcel of the space you'll call home.

FEELS LIKE LUXURY, FEELS LIKE HOME.

While calm and space are the ultimate luxury that Ren & Rei boasts of, details like Italian marble finish tiles flooring in the living rooms, chevron finish wooden flooring in the bedrooms and the play on different textures all come together to add to the luxe effect.

YOUR WORLD WITHIN THE WORLD.

Every square inch of an Assetz property reflects our 'Better Design' philosophy. Here you will find homes that let in tonnes of natural light, where space is intelligently managed, and every amenity is of the highest quality. And with emphasis on green and natural surroundings across our projects, we strive to create living spaces that are cherished forever.

At Assetz, we are committed to creating sustainable homes that have minimal impact on the environment. Every Assetz home is a Carbon Healing Home. Its features include utilising every drop of water, sending zero waste to landfill and ensuring a green cover that helps both you and the environment to breathe. Our team comprises over 300 professionals who bring outstanding expertise to

their respective fields. The team has a 12-year average of rich cross-industry skills across the board. As you have probably guessed by now, we also work with highly respected environmental specialists to make sure every Assetz home is eco-friendly.

Our mission is to balance the need to break through the clutter of a highly competitive market where trends and fashion have a very short shelf life, with the demands of cost and investor confidence. A way to not succumb to this is to conceive architecture that expresses a sort of timelessness – responding to factors that are immutable to the site and the surrounding context and not to passing trends – in order to create something that cannot be replicated elsewhere.
